[GUIDELINES FOR THE PREPARATION OF SCIENTIFIC POSTERS]

Size of poster **A1** (59x84 cm)

If the whole poster will not be in English, it is necessary to write the title, abstract, legend of tables, graphs and figures **in English**.

Divide the poster into sections (e.g. Title, Message, Introduction, Material and methods, Results, and Conclusions). Make it clear in which order they should be read by numbering or lettering (1, 2, 3...A, B, C...).

Clarity is the key word. Posters with too much information, details, colour and design have weak messages.

[INSTRUCTION FOR SPEAKERS]

Presentation (**MS PowerPoint**) has to be **in English**. There will be a PC and data projector at your disposal.

10 minute for report and **5** minutes for discussion are reserved.
