Wine trails

Petra Raisnerová
Moravian Wine trail

- Long-term project for the development of viniculture and sustainable tourism in South Moravia.
- Implemented by the Czech Environmental Partnership Foundation in collaboration with 280 wine-growing municipalities.
- Each of the 10 wine-growing regions in Moravia is connected by its own wine trail loop.
- Visitors can thus choose from one-day trips or longer tours on which to discover local culture, wines and monuments, all from a 1,200-km network of cycling trails.
Moravian Wine trail

- All signposts and information boards contain the LOGO
- The colour of the logo indicates on which of the 11 wine trails the visitor is at the moment
- In each town you will find an information panel containing a map of trails in the given wine region
Moravian Wine trail

- Wine tourism is directly connected with respect for the landscape, the maintenance of folk traditions and the renewal of our cultural heritage associated with winemaking.
- **Greenways** are trails or natural corridors used in accordance with their environmental function and their potential for sport, tourism and recreation.
Moravian Wine trail

- the main artery of the unique network
- marked in red, passes through all Moravian wine regions and intersects seven of the ten local wine loops
- It traverses 70 winemaking towns, dozens of protected natural areas and many of the region’s important historical and architectural monuments
Moravian Wine trail

• a route starting in Znojmo, but will reliably accompany you through the Moravian wine country in the opposite direction from Uherské Hradiště

• 300 km of southern Moravian orchards and vineyards

• safe roads with quality surfacing and most interesting winemaking localities
